Workbooks, Worksheets, and Cells A Workbook is an Excel file containing one or more worksheets. Each Worksheet is a grid of cells arranged in rows and columns. Cells are the basic units for data entry, identified by their cell reference (e.g., A1, B2).

Navigation Tips Use the Tab key to move right, Enter to move down. Use the Name Box to jump directly to a cell (e.g., typing 'D10' and pressing Enter). Scrollbars, mouse wheel, or keyboard shortcuts (e.g., Ctrl + Arrow keys) facilitate movement across large datasets.

Data Entry and Basic Formatting Effective data entry and formatting are foundational to creating readable and professional spreadsheets.

Entering Data Click on a cell and type the information. Use AutoFill (dragging the fill handle) for sequences like dates or numbers. Use Copy (Ctrl+C) and Paste (Ctrl+V) to duplicate data.

Formatting Cells Access formatting options via the Home tab. Common formatting options include: Font style, size, and color. Cell fill color. Formula Auditing and Error Checking Use the Formula Auditing tools to trace precedents and dependents. Detect and correct errors like `#DIV/0!`, `#NAME?`, or `#VALUE!`.

Data Management and Organization Efficient data management makes your spreadsheets more organized and easier to analyze.

Sorting and Filtering Data Sorting: Arrange data alphabetically, numerically, or by custom order via the Sort button. Filtering: Use AutoFilter to display only rows matching specific criteria.

Tables and Data Ranges Convert ranges into Excel Tables for easier sorting, filtering, and styling. Tables automatically expand with new data and improve formula robustness.

Data Validation Restricts data entry to specific types or ranges. Example: Limit cell entries to a list of options or numerical ranges.

Charts and Visual Data Representation Visual aids enhance the interpretability of data.

Creating Charts Select data range. Navigate to the Insert tab. Choose chart types: Column, Line, Pie, Bar, Area, Scatter, etc. Customize chart titles, axes, legends, and data labels.
